The Master Plan Committee met with volunteer Kevin Pobst to discuss his draft of the Master Plan Education section. Pobst had distributed the draft to committee members in April and had hard copies available. The committee discussed the draft, further information needed, and formulated a plan to reach parents of home schoolers and students attending private schools. Kevin is comfortable continuing his work and will reach out to other MPC members if he needs help.

Discussed expressed need and best solution for updating Master Plan Table of Contents. Will report recommendation to the Planning Board.

Respectfully submitted
