

TOWN OF FRANCESTOWN
NOTICE OF DECISION

On September 16, 2019, the Frankestown Zoning Board of Adjustment voted to deny the variance application of Mr. and Mrs. Paul Bellino for a variance to construct a 20' x 30' shed approximately 25' from the property line where the Zoning Ordinance required a 50' setback. The Board found there was no hardship as defined by the Ordinance and the Statutes and that alternate locations on the lot were available to construct the shed and comply with the setback. The other four (4) criteria were not voted on. The vote of the Board was four (4) members to deny the variance and one (1) member opposed to the denial.
